

**JUNE PALLOT AWARD FOR BEST ARTICLE IN THE  
*INTERNATIONAL PUBLIC MANAGEMENT  
JOURNAL, VOLUME 7***

The International Public Management Network created the June Pallot Award for best article published annually in the *International Public Management Journal* with emphasis on public sector accounting, accountability, and finance, after her death in 2004. June served as associate editor of *IPMJ* beginning in 2000. Her career is an inspiration to all. She took part in, conducted research, and published on New Zealand's public-sector financial management reforms for more than two decades. Her interest in public-sector financial management issues preceded 1984, the year New Zealand commenced an extreme and rapid period of economic and public-sector reform, and continued until her death from cancer on 5 November 2004 at the age of fifty-one. Her research on public-sector financial management, and New Zealand's public-sector financial management reforms in particular, was both prodigious and insightful. June Pallot had a vibrant personality and a great sense of humor. She supported and cared for others, and she always exhibited graciousness and optimism. Her death is a great loss to the academic world. Beyond her professional accomplishments, for many, June's death means the loss of a dear friend.

We are pleased to announce the recipients of the June Pallot Award for best article published in volume seven of the *International Public Management Journal* (2004): Perri 6 and Edward Peck for "Modernization: The Ten Commandments of New Labour's Approach to Public Management," volume 7, number 1: 1-18.
